# OUTDOOR WIFI BULB CAMERA

## Smart Dual Light

Targets are precisely detected by the Smart Dual Light, which uses a clever algorithm. Normally, at night, the IR illuminator is turned on. The warm light illuminates and the camera records full-color video and details of significant events when it detects the target.

## Motion Tracking

When somebody move, the camera will be track automatically follow moving objects, record video and intelligent notifications, so you will only receive a warning when it is necessary. If there is enough variation between frames, a camera will turn on automatically.

## Two Way Audio Communication

Allows you to communicate using camera where ever you are, which includes using a phone to talk while watching a live video feed.

## MicroSD Card Support

Use a MicroSd Card to record your video; It can support upto 128GB of data.

*"Alexa, show me courtyard"*

Supports Amazon Alexa & Google Assistant.
