IP66

3MP Full HD Video Recording

Designed to reflect an improved picture quality in full HD video, preventing pixilation in the video feed and allowing for a clear view of every detail.

Motion Detection

The camera recognises human detection and intelligent notifications, which means that you will only be warned when you need to be.

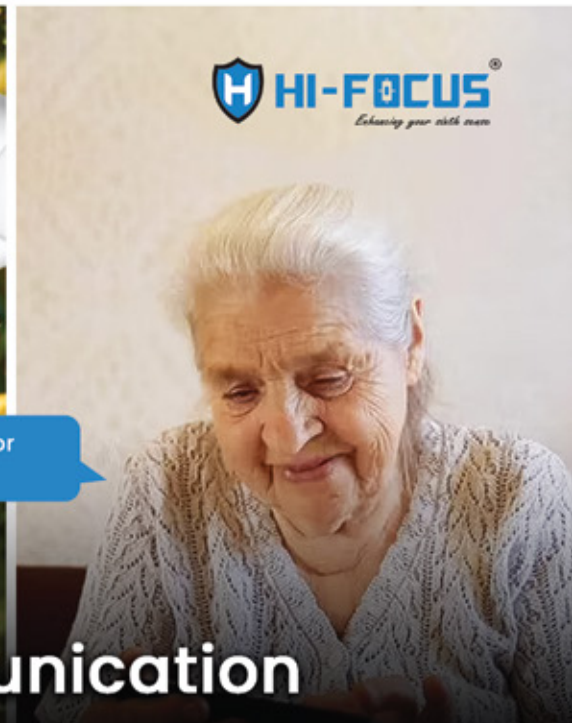

4G Connect

Hi-Focus Camera does not even need to be installed; all you need to do is mount it, plug it in, connect to the 4G network, and you are ready to go.

Colorized Night Vision

Provides perfect clarity full-color video even in low light because the larger sensor's pixels collect more light, which enhances image quality even in low light.

Two Way Audio Communication

Allows you to communicate with your loved ones wherever you are, which includes using a phone to talk while watching a live video feed.

Cloud Storage Support

Has the CCTV gone missing? Stay stress-free with Hi-Focus cloud storage support.

Specifications:

Product	4G IP camera
Mega Pixel	3.MP
Sensor type	1/3" CMOS Sensor
Lens	4MM fixed lens
IR LED	4 Infrared LEDs
Fill light distance	Infrared 10-15 meters, white light 15~20meters
Resolution	Main stream: 2304*1296; Sub-stream: 640*360
Frame rate	15fps
Image compression format	H.264/H.265 video encoding, support dual stream
Audio encoding format	AAC, G711
Storage	Support cloud storage, TF card storage(maximum support 256G)
Audio	Two-way voice
4G band	FDD:B1/3/5/7/8/20 TDD:B38/40/41
WIFI	Not Support
RJ45 network port	10-100M adaptive
ONVIF	Support
Supporting protocol	N1 protocol support
Minimum illumination	Color: 0.1Lux, black and white0.01Lux
Power supply	DC12V
Power consumption	≤10W
