

HF-HEV150P-W

Product Features

- ≥ Support HDCP1.3
- ≥ Support standard protocol IEEE802.11a/n
- ≥ Support Miracast, Airplay wireless protocol
- ≥ Support Android phone / PC / Apple wireless screen sharing
- ≥ Working in 5G frequency band, not easy disturbed by wireless signals
- ≥ Wireless extender mode, the longest distance can be 150m when open space without any barriers, normal go through the wall up to 40 meters (Laboratory test environment)
- ≥ The transmission distance of the same screen mode can reach up to 50 meters
- ≥ The full metal casing has better heat dissipation and stronger anti-interference
- ≥ External high-gain antenna, better receiving effect, more stable.

An ISO 9001:2008 Certified Company

Specifications:

HDMI input resolution	1280X720 P60/50Hz, 720X480P 60Hz, 720X576P 50Hz, 1920X1080P 60/50/30/24Hz
HDMI output resolution	1920x1080P/60Hz
Support audio format	Stereo audio
Max bandwidth	148.5MHz
Max baud rate	1.485Gbps
Transmitter Max working current	430mA
Receiver Max working current	300mA
Operating Temperature range	(-15°C to +55°C)
Dimension	106x37x17 (mm), antenna length: 155mm
Weight	105g×2

Package list:

- 150M HDMI Wireless Extender — 1 pair
- Type-C USB cable — 2 PCS
- HDMI cable (male to female) — 2 PCS
- User manual — 1 PC
