OUTDOOR WIFI BULB CAMERA

Smart Dual Light

Targets are precisely detected by the Smart Dual Light, which uses a clever algorithm. Normally, at night, the IR illuminator is turned on. The warm light illuminates and the camera records full-color video and details of significant events when it detects the target.

Motion Tracking

When somebody move, the camera will be track automatically follow moving objects, record video and intelligent notifications, so you will only receive a warning when it is necessary. If there is enough variation between frames, a camera will turn on automatically.

Two Way Audio Communication

Allows you to communicate using camera where ever you are, which includes using a phone to talk while watching a live video feed.

MicroSD Card Support

Use a MicroSd Card to record your video; It can support upto 128GB of data.

"Alexa, show me courtyard"

Supports Amazon Alexa & Google Assistant.
